Sources: London - Planning London Datahub, Greater London Authority (public guest API). South East and Greater Manchester - UK PlanIt (planit.org.uk), compiled from local planning authority registers. Company names only: personal names, phone numbers and emails are removed. Blank company = not published in source or not clearly an organisation. Units: structured source field where available; * = parsed from the description (gross, may include student/co-living rooms). Condition discharges, amendments, screening/scoping opinions and lawful development certificates are excluded. PlanIt-based regions only cover councils PlanIt can read, so counts are a floor, not a census. Information only, not advice: always verify against the council register before acting. Full list and links in the CSV.
